

Perfect Peyote Ball Stuffing

1. The 30 rows Peyote Ball is stuffed with one foam ball plus a small disc. It will be packaged vacuum. Please leave it a while to regain shape.

IMPORTANT! The foam ball has a small flat cut off surface. This needs to be placed at the top of the ball, facing upwards.

Zip up your Peyote Ball except for the top 5 triangles. Before you stuff the Peyote Ball, push all the triangles outwards.

2. Squeeze the foam ball with your whole hand to push it as far as possible into the Peyote Ball. Use the top of your fingers to gently push the whole foam ball in.

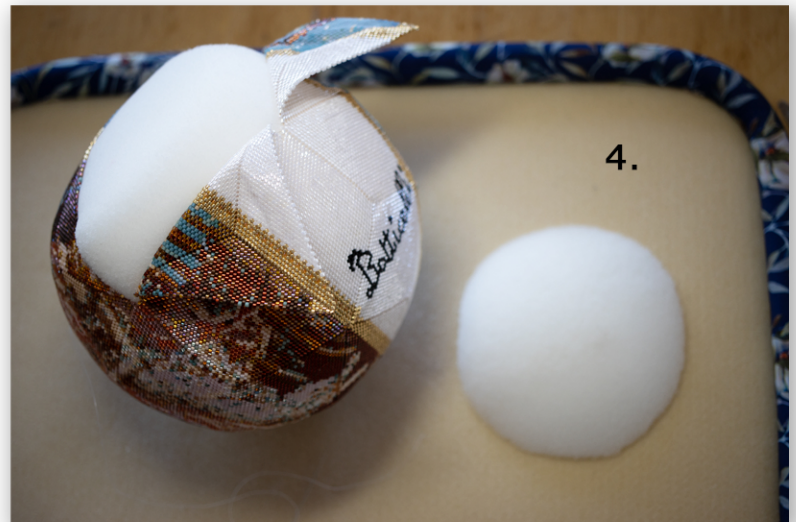

3. Your project should look like the photo below.

4. Zip up 3 of the top 5 triangles.

5. Gently push the foam disc under the closed triangles.
It should fill the flat cut out surface.

6. It should look like this:

7. Your Peyote Ball is ready to be closed!
